Have you seen the new publication entitled "Book for Advertisers" just put forth by Geo. P. Rowell & Co., of New York? It would probably interest you. It undertakes to advise advertisers what papers they should use, and although it names scarcely one-tenth of the papers published, your own paper is one of those mentioned; and some favorite journals are named in no less than six separate places. The book contains nearly four hundred pages, and is sold in

paper covers, for a dollar, or in a handsome library binding for two dollars. It is sent postage paid on receipt of price.

POLITICAL CHIPS.

Candidates are looming up. The people will decide matters. Combinations made are too easily broken. Sharpers will not be able to skin this time. The next convention will be conducted right.

LET US HAVE SUFFRAGE.

That able exponent of the colored race, the Washington Bee, coincides with the views expressed by the Government Official, when it demands the enactment of such laws which will do away with the disfranchisement of over 300,000 people in the District of Columbia.—Government Official.

DECORATION DAY EXCURSION.

The new separate battalion composed of the Capital City Guard and the Cadet Corps, will give an excursion to Coltingwood Beach May 30th, on the steamer Geo. Law. Music by the Monumental orchestra. Boat leaves at 10:13 and 5:30 p.m. Tickets 50c. Capt. Joice, Excursion Manager.

TO BE INDICTED.

The Home for Destitute children of this city, the only legitimate institution in this city of the kind, will now proceed to bring action against those who collected money on April 16th under the pretense that the proceeds of the entertainments were for the benefit of the Home. Mrs. Waring is president. There is no such institution as the Educational and Relief association in this city. The persons connected with the Home for Destitute children compose the leading citizens of Washington.

IT IS RUMORED,

That John H. Smyth will join the democratic party.

J. M. Townsend could not draw a crowd last week.

The Educational and Relief Association only exists in the schemers mind.

The Negro who wrote Mrs. Waring that impudent note will hear something drop in a few days.

John R. Lynch is a polished politician.

Recorder Bruce knows when to give a diplomatic answer.

There will be many disappointments next year.

THANKS TO THE EDITOR.

In praise of the same allow us to say that it was the best and the most powerful publication in this our day of modern improvement. The church has extended to you a vote of thanks with a prayer that your organ may soon make itself felt in the mind of this great and grand Republic that covers the land and sea of this our American continent.

Yours truly, Walker Memorial Bapt. church, J. L. Whales, Chair.; Geo. W. Perrett, clerk.

DEATHS.

Dr. Smith Townsend, Health Officer, presents the following report for week ending May 16th, '91.

Number of deaths 90, white 45; colored 45. Death rate per 1,000 per annum: white 13.8; colored 26.2. Total population, 187,30 were under five years of age; 16 were under one year old, and 18 over 60 years. 16 of the deaths occurred in hospitals and public institutions. The deaths by classes were as follows: Zymotic 11; Constitutional 27; Local 39; Developmental 10; Violence 3. The principal causes of death were: Consumption 11; Diarrhoea 1; Erysipelas 1; Malarial Fever 1; Pneumonia 7; Congestion of the Lungs 2; Bronchitis 7; Measles 1; Whooping Cough 2; Meningitis 2; Cancers 5; Kidney diseases 3; Tuberculosis 4. Births reported: 23 white males, 27 white females; 9 colored males, 13 colored females. Marriages reported: 17 white, 9 colored. Still births reported: 5 white, 1 colored.

The mortality returns this week present a marked and gratifying falling off in the number of deaths throughout the District, the number being only 90 as compared with 129 for each of the two preceding weeks. The fatalities from acute lung diseases have decreased from 60 in the last week of April to 34 in the first week of May, to 23 last week and to 15 only this week. The number of deaths from brain, heart and kidney diseases in this and former weeks, many of which have evidently been superinduced by the epidemic Catarrhal Influenza, should serve as a caution to everyone, especially persons advanced in age, to guard against all exposure to dampness and sudden change of temperature.

J. Coolidge

HARNESS ATTACHMENT

Patented

NOVEMBER 13TH, 1888.

J. S. Coolidge's Harness attachment is the best thing of the kind ever put on the market. It is so arranged that any one can secure it to any harness, in three minutes, without cutting the same in any way, right out in the street. It can be taken off the harness in two minutes, and the harness returned to its former style without the least trouble or exertion. It saves time in hitching and unhitching as a horse can be attached to the vehicle in less than 30 seconds and extricated in less than 5 seconds. It is an ornament to the harness and contains nothing in its parts to get out of order, the case being so constructed that the straps can be lengthened or shortened as is required. The Bolt is removable secured so as to allow the spring to be removed when worn. The particular advantage this device possesses over others consists in the construction of the case and arrangements of the straps, whereby the same may be attached to any harness without cutting the same, as has been heretofore necessary in order to use devices of this character.

To the loop of the Bolt may be attached lines 23, said lines being connected with the driver by suitable means, so that if the horse runs or becomes unmanageable, the tightening of the lines will draw the bolt 12, and the spring 24 will cast the plate 16 aside and release the animal from the vehicle. Any woman or child can hitch or unhitch a horse without the slightest trouble. Thousands of the attachments are being used every day.
